## DISCUSSION

- The meeting was online.
- The meet started with the client asking for our IIIT IP address to which we were connected. Then he asked for the localhost port. Through this he got access to our page on his system.
- After that the client took updates on what has been done.
- Then he visited every page on his system and tried to do login, add data etc.
- Then he told us to do a few modifications.
- He also told us to focus on the functionality part first then move on to the UI part.
- The meeting concluded with him asking us to come to his office next week after the midsems.
- The meeting time was around 8-10 min.
